Pipe Stress Analysis per ASME B 31.3

Course Duration: 03 Weeks.

Course Starting Dates: Starts every month 01st.

Course Venue: IPEBS, Hyderabad, INDIA.

Note: Download IPEBS Training Calendar for exact course start dates for the year 2019 from www.ipebs.in
PROGRAM OVERVIEW

Pipe Stress Analysis per ASME B 31.3

This is a comprehensive program designed to present all major topics relative to the Process Piping Mechanical design, Hydraulic design and Stress Analysis of Process Piping Systems.

It is one of the Unique Training Program which also covers comprehensive Static Stress Analysis of Piping Systems along with CAESAR – II software.

The program duration is 03 Weeks Full time Instruction including concept theory, calculations, Code requirements, exposure to Industry Leading Pipe Stress Analysis Software (CAESAR – II).

WHO SHOULD ATTEND

Practicing Piping Design/layout Engineers, Piping 3d Cad Engineers, Piping Draftsmen and Piping Stress Engineers.

WHAT YOU WILL LEARN

Upon completion of this course the participant will be able to

- Perform Pressure Design/Hydraulic Design Calculations.
- Piping Stress Requirements.
- Use CAESAR II Software to create 3d models of Piping Systems & Perform Static Stress Analysis.

Trainer Synopsis

- Faculty with 15 years of practical consulting & construction experience.
- Gulf Experienced.
- International Corporate Speaker & Trainer.
- Practicing Piping Engineering Consultant for India / International Projects.
COURSE MAJOR MODULES

I) Piping & Pipeline Systems Design

- Pressure Design of Process Piping Systems/ Pipelines/ Building Services Piping.

II) Pipe Stress Analysis

- Introduction
- Pipe Span Calculations
- Expansion Loops & Expansion Joints
- Layout Solutions for Weight, Thermal, & Wind Loads.
- Sustained Loads
- Flexibility Analysis using Code Equations
- Occasional Loads

III) CAESAR II – Software Static Analysis
DETAILED PROGRAM DESCRIPTION

I) Piping Systems Design

Module - 1) Pressure Design of Process Piping Systems – ASME B 31.3

- Scope of ASME B 31.3, B31.4 & B 31.8
- ASME B 31.3 Fluid Service Categories.
- Design Pressure & Design Temperature for Piping Systems.
- P-T Rating Determination of Flanges, Threaded & Socket Weld Fittings.
- Pressure Design of Straight Pipe under Internal Pressure – Wall thickness Calculations.
- MDP – Maximum Design Pressure for Piping Systems
- Branch Reinforcements – Reinforcement Pad Calculations.
- Pressure Design of Miter Bends – Single & Multiple Miters.
- Pressure Design of Blanks.
- Pipeline Wall thickness Calculations – B 31.4 / B 31.8.
- MAOP – Maximum Allowable Operating Pressure for Pipelines.
- Piping Material Selection per ASME Code.

Module - 2) Hydraulic Design of Liquid Piping Systems & Pipelines

A. Pressure Drop Due to Friction

- Velocity Variation in Pipes
- Typical Velocities for Water Piping & Other Liquids
- Pipe Sizing
- Hazen Williams Equation
- Darcy Weisbach Equation
- Friction Factor
- Reynolds Number
- Colebrook White Equation
- Moody Diagram

B. Pressure & Horse Power Required

- Total Pressure Required to Transport – Friction Head, Elevation Head, And Minimum Delivery Pressure.
- Elements of Total Dynamic Head – Static Head, Pressure Head, Velocity Head, Friction Head.
- Pump Horse Power Required.
- Cavitation in Pumps.
- NPSH Required & NPSH Available for Pumps.

II) Pipe Stress Analysis

Module - 1) Introduction

- Objectives & Definition of Stress Analysis
- Piping Stresses - Primary, Secondary.
- Stresses acting in Pipe due to internal Pressure.
- Stresses acting in Pipe due to pipe weight.
- Critical Line List & its criteria.
- Information Required for Stress Analysis.
- Occasional Loads
- Wind Load.
- Seismic Load.
- Water Hammer Load.
- Theories of Failure.
DETAILED PROGRAM DESCRIPTION (contd)

Module - 2) Pipe Support Span Calculations

- Span limitations based on Stress, Deflection & Natural Frequency.
- Allowable Pipe Span Calculations.
- Suggested Pipe Support Spacing.
- Pipe Span Reduction Factor for Elbows, Concentrated Loads etc.
- Insulation Types & Densities.

Module - 3) Flexibility Analysis – Expansion Loops & Expansion Joints.

- Concept of Thermal Expansion.
- Providing Flexibility in Piping.
- Minimum Leg Required to Absorb Thermal Expansion.
- Stress Nomographs for Pump and Vessel Piping.
- Types of Expansion Loops.
- Expansion Loop Sizing for Hot Piping.
- Expansion Loops requirements on pipe racks.
- Thermal Calculation by Nomographs - pumps, vessels, heat exchangers.
- Nozzle Thermal Growth Calculations – Columns, Vessels.
- Bellow Materials, Hydrostatic Test Pressure for Bellows.
- Guide Spacing for Expansion Joints.
- Severe Cyclic Conditions.

Module - 4) Layout Solutions for Weight, Thermal, Vibration & Wind Loads

- Causes of Pipe Stress.
- Solving Concentrated Loads and Reducing Loads on Equipment Nozzles.
- Checking Piping Layout in Pipe Racks.
- Checking Piping Layout for Reciprocating Equipment.
- Checking Piping Layout for Wind Load.
- Solutions for piping loads.
- Selection of Supports, Location of Supports and Restraints on a Pump Piping Layout.

Module - 5) Flexibility Analysis using ASME B 31.3 Code Equations

- Stress Range Reduction Factors – f.
- Bending & Torsion Stress.
- Formal Analysis Requirements.
- Inplane & Outplane Bending Moments
- Stress Intensification Factors – SIF.
- Calculation of Thermal Expansion Stress
- Cold Spring & its code requirements.

- III) CAESAR – II – Pipe Stress Analysis Software

- Introduction.
- Piping Input Spreadsheet.
- Modelling of Piping Isometrics – Bends, Returns, Reducers, Valves, Loops etc.
- Performing Static Analysis.
- Load case explanations
- Modifying Load Cases.
- Hanger Selection.
- Set up of SUS, OPE, EXP, HYD, HGR Load cases.
- Set up of Wind Load cases.
- Set up of Uniform Load cases.
- Load Case Editor.
- Evaluating API 610 Pump Nozzle Loads.
DETAILED PROGRAM DESCRIPTION (contd)

- WRC Nozzle load calculations.
- Viewing Reports.
- Word/Excel file conversion of reports.
- Making/Reviewing unit files.
- Importing Lines for stress analysis.
- 10 Practical Examples – Input, Analysis & Redesign.
GENERAL INFORMATION:

- Participants are expected to be present each day and during all training periods. Participants who do not fulfill the attendance requirement will not be certified. Please remember this when making your travel arrangements.
- Course fee includes Printed Training Materials (Manual, Hand outs etc.), & Participants will be awarded with Diploma / Post Graduate Diploma Certificate (*QMS Accredited to *AIAO – BAR).
- Venue for the Diploma Courses will be IPEBS facility, Hyderabad.
- The course is restricted to registered participants only. Visitors are not permitted.
- Use of mobile phones, Personal Data Assistants (PDA, Blackberry) and pagers is not permitted during training periods. Same applies for use of laptop, tablet, and computer for any purpose (E-mail, games etc.) other than course training.
- Participants are expected to maintain a professional standard of appearance and behavior. Any participant wearing inappropriate attire or behaving in an unprofessional manner will be given a verbal warning. Further incidents may result in the participant being asked to leave the class without refunding their fee.
- Failure to meet or comply with these requirements will result in non-certification.
- Accommodation can be arranged on request for the participants near to the training facility. (Accommodation is not included in the course fee).
- **International participants registering for the diploma courses, please contact IPEBS by email to info@ipebs.in for further course details & visa assistance.**

2) AIAO – BAR – American International Accreditation Organization, California, USA.
INSTRUCTOR PROFILE

- Mechanical Engineering Graduate from JNTU, Hyderabad
- Over 16 years of experience in Plant Engineering (Operations & Maintenance), Process Plant piping & pipeline layout, design, Stress Analysis & Construction.
- Worked in Gulf Countries & India as Mechanical Maintenance Engineers & Senior Piping Engineer for Consulting & Construction Companies.
- Major work areas included Plant Piping 3d Modeling, CAESAR II flexibility analysis, piping & equipment layouts, pipe support design, ASME Code calculations – Piping Material Specifications, Piping Maintenance - Corrosion Control, Repair, Re-rating, Non Destructive Examination, Testing of Piping Systems, Piping Construction including Fabrication, Assembly & Erection, QA / QC for various oil & gas projects.
- Expertise in Various Codes & Standards including ASME, API, DIN, IS & BS.
- Successfully trained more than One Thousand Piping Engineers.
- International Course Speaker.
- Over 6 years of Quality Training Experience in Piping & Pipeline Engineering Courses.
- Practicing Piping Engineering Consultant for local & International Projects.
DIPLOMA COURSE | DURATION | TIMING
---|---|---
Pipe Stress Analysis per ASME B 31.3 | 14 Days (Inclusive of Public Holidays) | 10:00am to 03:00pm

*For course fee details please contact, E-mail: info@ipebs.in Mobile: +91-9885946711

Can’t take 4-6 Weeks for training?
Attend the Accelerated Training Workshop - A 5-Day Version of our Highly Acclaimed Diploma Courses.
For Further details about Workshops, please visit our website www.ipebs.in

Interested In Onsite training, For further Information on Onsite Trainings please contact, E-mail: corptrain@ipebs.in Mobile: +91-9885946711

Terms & conditions:

CANCELLATIONS: IPEBS does not provide refunds for Cancellations done after registration & fee payment. However, credit maybe granted to a later program. This credit will be available for up to one year from the date of issuance.

COURSE MATERIAL AGREEMENT: It is the intention of IPEBS that the course text and materials supplied to participants at IPEBS courses are prepared and issued for the participants’ sole use. Codes and standards constantly change and interpretations are issued by the publishing societies. Information contained in IPEBS course materials is based on the best available data obtained by IPEBS at the time of publication. IPEBS is in no way responsible for subsequent use regardless of intention.

PROGRAM CHANGE POLICY: Please note that instructors and topics were confirmed at the time of publishing this document; however, circumstances beyond the control of the training organizers may necessitate substitutions, alterations or cancellations of the instructors and/or topics. As such, IPEBS reserves the right to alter or modify the instructors and/or topics if necessary. Any substitutions or alterations will be updated on our web site.

COURSE CANCELLATION BY IPEBS: IPEBS reserves the right to cancel any course due to circumstances beyond our control. All tuition fees will be refunded in the event of cancellation. IPEBS liability is limited to only those tuition fees paid in advance.

FORCE MAJEURE: Except for the obligations to make money payments as outlined hereunder, neither party shall be responsible to the other for delay or failure to perform any of the terms and conditions, or other activities, of this agreement if such delay or failure is caused by strike, war, act of God, or force majeure.
REGISTRATION FORM

Please visit www.ipebs.in for details on courses we offer and more updated information.

You can register online.

Or

For applications by E-mail, please fill the form below and send to info@ipebs.in
